THM{ATTACK\_BLOCKED}

198.51.100.34	203.0.110.1	22	DROP
198.51.100.34	203.0.110.1	80	DROP
198.51.100.34	203.0.110.1	3306	DROP
198.51.100.34	203.0.110.1	8080	DROP

The diagram illustrates a network topology. On the left, a computer monitor icon is labeled "198.51.100.34". A dotted line extends from this computer to a central "router" device, which is represented as a grey rectangular box with two antennas. From the router, a solid line leads to another computer monitor icon on the right, labeled "203.0.110.1". A battery icon is positioned next to the second computer, indicating it is a mobile device.

Answer the questions below

Add the necessary firewall rules to block the ongoing attack. What is the flag that you have received after successfully stopping the attack?

THM{ATTACK\_BLOCKED}

✓ Correct Answer

http://router/

## Firewall Rules

Source IP	Destination IP	Port	Action
198.51.100.34	203.0.110.1	808	DROP
198.51.100.34	203.0.110.1	21	DROP
198.51.100.34	203.0.110.1	22	DROP
198.51.100.34	203.0.110.1	80	DROP
198.51.100.34	203.0.110.1	3306	DROP
198.51.100.34	203.0.110.1	8080	DROP

The diagram illustrates a network topology. On the left, a computer monitor icon is labeled "198.51.100.34". A dotted line connects it to a central router device. Another dotted line extends from the router to a computer monitor icon on the right, labeled "203.0.110.1". This computer icon includes a battery symbol indicating it is powered. Below the first computer, another monitor icon is labeled "203.0.113.99", with a dotted line connecting it directly to the router.
